

72' wide with
20' ceiling
height.
40'x20' bi-fold.

80'x300'x22' ceiling height with 50'x22' bi-fold door. Has 80'x100' heated shop plus 80'x200' cold storage.

Machinery Storage: Protecting your machinery from the elements increases trade in value and reduces downtime in the field. Call for a free quote today!

Grain and Fertilizer Storage: Storing grain or fertilizer in an AFAB building is simple, cost effective and versatile. Hauling out with your loader is simple and cost per bushel is only pennies. As you haul out you'll have room for your machinery.

Heated Shops: What you can save by servicing your own equipment can often pay for your own heated shop. Plus, starting tractors and trucks in the winter is no longer a problem.

Riding Arena: With clear spans to 100' AFAB post frame buildings are ideally suited for riding and roping arenas.

Aircraft Hangers: Available with extra large bi-fold doors. Call for a free quote.

Hay Shelters: Available in a wide range of sizes and styles. Designed to maintain top feed value and quality for more profit.

Pressurized Cattle Shelter: Unique design virtually eliminates snow accumulation inside the shelter.

Engineered Commercial AFAB Buildings: Post Frame or Post & Beam Exterior and interior designs available to comply with all your building requirements. General contracting available for a complete turnkey building such as site preparation, concrete, plumbing, electrical, heating, air conditioning and more.
