

Canada's Foremost Authority on Grainbox Design and Building for 95 Years

CANCADE
CBI LIMITED

Canada's Largest Dealer Network

Auto shift or manual transmission, fully-equipped with bale decks, grain or gravel boxes as well as tractor units to pull trailers available through our network of dealers.

MONOBODY & STIFF POLE PONY PUP TRAILER Body lengths made to suit your needs from 19' - 26' and side heights up to 68". Monobody designed with 8", 10" or 12" sills. The Monobody has a lower center of gravity, with a simple clean design—with or without center post. All bodies are star-blasted and epoxy undercoated with a urethane top coat.

CANCADE GV BALE DECK
Self-loading and unloading bale decks with 10-bale to 36-bale capacity. Sold with truck only or pup trailer. Frame-mounted load arm with separate top loader.

STEALTH HYDRAULIC The "No Hang Up Silage Gate" is simple in design and no others compare. The inside of the box has no obstructions. Hydraulic top hinge takes stress away from gate and box and allows product to exit prior to gate being raised all the way up.

END DUMP "TUB" TRAILER
The "Tub" design is stronger and completely obstruction-free in design. Lower centre of gravity. Available in steel or aluminum.

ALUMIBODY Combines all the features of the steel Monobody but with approx. 50 percent weight savings and corrosion resistance of aluminum, now with stainless steel hardware.
