- Fertilizer Streaming and special purpose

Call For A No Commitment Nozzle Consultation 20 Years Practical Experience

HYPRO DUO REACT NOZZLE CONTROL SYSTEM

Increase Productivity over 30% and improve spray quality
Ultimate Control at an Affordable Price

INCREASE PRODUCTIVITY

- Match Spray Speed to conditions not nozzle constraints
- Less time changing nozzles even when changing rates

REDUCE STRESS

- No Over/Under Driving to stay in nozzle's sweet spot
- Reduce drift concerns from the cab if conditions change

SUPERIOR CONTROL

- Uses Air Induction Nozzles for best coverage & drift control
- Spray with two nozzles at once for different targets
- Switch nozzles from the cab if spray conditions change
- Instant nozzle on/off times

ULTIMATE VALUE

- One Day installation
- Retrofits most Sprayers
- Easy to use and Maintain
- Minimal wiring, electronics, and moving parts
- Works with sprayer's existing autorate and gps
