## GrainBoss 13 & GrainBoss 16 Grain Bag Extractors

300 bushels per minute with GrainBoss16 and 200 bushels per minute with GrainBoss13

### 360° ROTATING AUGER

- Patented unloading auger eliminates need to move truck to even out loads.
- Hydraulically powered drive gives operator precise control.

### PULL THROUGH ROLLERS

- Patented narrow pull through roller design keeps GrainBoss inside track of bag.
- Rollers drop bag eliminating need to stop production to empty bag rollers.
- Eliminate extensive snow removal.

### HIGH MOISTURE BOTTOM

- Available as an option it is able to break up high moisture bagged commodity.
- Great for breaking up grain that has frozen or compacted due to excess moisture.
- Safely store high moisture corn as feed.

### STEERABLE WHEELS

- Patent-pending steerable axles allow user to align machine to the bag.
- Eliminates the need to unhook the bag to realign extractor with the bag.

### FEED AUGER SYSTEM

- Primary auger breaks up bagged commodity.
- Patented enclosed cross auger system feeds auger to maximum capacity.

### DIRECT DRIVE WHEELS

- Hydraulically driven patent-pending direct gear drive works in combination with bag roller to pull the GrainBoss through the bag.
- GrainBoss will work through mud or tears in the bag.

**Double the capacity  
half the price!**

See how a GrainBoss can load an entire semi load in under 10 minutes
