Block Buster Unload

42-09 Stiffened Farm Bins in Quill Lake, SK

We offer high quality Superior Grain Equipment. Superior grain bins are built to withstand wind gusts up to 90 miles per hour and roof snow loads up to 40 lbs per sq ft. We store all our bin packages in-doors.

Superiors' bins feature their premium (patent pending) Block Buster unload system. It is a specially designed auger (operated outside the bin) positioned over the center gate with a reversing gearbox and centrifugal clutch system which allows the Block Buster to spin one direction and drive the sweep auger and wheel in the other direction.

Our gas powered mobile aeration solution is capable of fitting any grain bin transition. Powered by an 18HP Vanguard engine.

We offer Concept smooth-wall bins. They are made with high quality steel and come with a 10-Year structure guarantee and the widest skid base available on the market.

We offer Bin-Sense by IntraGrain with all our bin packages.

Our mobile pressure washer, the LAVO, is an efficient way to wash vehicles and equipment remotely. Comes standard with a 100 gallon water tank.

Full Centrifugal, Inline, and Low Speed electric fans available from 3HP-15HP (depending on fan type)

We have 15HP Single Phase Fans!
